

FIRM PROFILE

Founded in 1976, Bryant Associates, Inc. (Bryant) is a professional consulting firm that provides civil, structural and traffic engineering, water resources, construction management and surveying services to public and private clients throughout the Northeast, Midwest and Mid-Atlantic regions.

Bryant is a minority and disadvantaged business enterprise (MBE/DBE) certified by various states, government agencies, counties, cities and towns. Our public sector clients include local, state and federal environmental management agencies, facility management agencies, housing authorities, parks and recreation departments, public works agencies, municipalities and transportation agencies. Our private sector clients include architects, contractors, developers, engineering firms, corporations and institutions.

For over four decades, Bryant has helped clients attain their development goals by providing site/civil engineering services for an array of linear, environmental and building projects in urban, suburban and coastal areas. These include: street and sidewalk reconstruction; site development for airports, commercial, institutional and residential buildings and parks and playgrounds; highway, roadway and railroad earth retention systems; drainage design and utility relocations. In addition, we have extensive experience in the rehabilitation and design of new water distribution and wastewater collection systems. Our capabilities include:

Site/Civil

- Environmental Permitting
- Erosion & Sediment Control
- Feasibility Studies
- Infrastructure & Utility Design
- Land Use Planning & Permitting
- Low Impact Design
- Parking Lots
- Permitting/Approvals
- Roadway & Transportation Facilities
- Site Design
- Stormwater Management
- Stormwater Pollution Prevention Plans (SWPPP)
- Stream Crossings & Culverts
- Trenchless Technologies
- Underground Storage
- Utility Infrastructure Design
- Water & Wastewater Systems
- Watershed & Hydrologic Analyses

Clients choose Bryant because of our commitment to quality, our knowledge of their needs, standards and constraints, and our proficient and thoughtful professional team of engineers and skilled and creative technical staff. We also take great pride in being ecologically responsible and sustainable in our projects by taking a proactive approach in the materials being used, and being cost- and utility-effective.

We regularly work both as a prime and subconsultant and often collaborate with professional peers and organizations that complement our skills and experience, to build teams with diverse capabilities. We are quality driven and our leadership team is accessible, involved and available.
